About us ~

Fionexa International was established in 2024 with a vision to provide premium and sustainable bagasse tableware to global markets. What started as a small initiative to replace single-use plastic has now grown into a trusted exporting company supplying eco-friendly plates, bowls, trays, cups, and clamshell boxes worldwide.

From the beginning, our focus has been on quality, hygiene, and sustainability. All our products are made from 100% natural sugarcane bagasse and designed to be durable, compostable, microwave-safe, and food-grade.

Our mission is simple:
to provide sustainable, high-quality alternatives to single-use plastic, without compromising strength, safety, or performance.

Today, we proudly supply clients across the USA, Europe, the Middle East, and other global markets, delivering reliable eco-solutions that support a cleaner, greener future.
